Usability Hub
- Languages**  
Swedish  
English

## ABOUT ME

I am a social and outgoing person from an international family. Raised in Oskarshamn, a small town just north of Kalmar, Sweden. I studied Interaction design which I found very instructive and tackles a wide variety of subjects. I've graduated with a Bachelor of Science with specialization in interaction design and I'm looking to continuously developing great user experiences in interesting and challenging projects.

On my spare time I enjoy exercising, mostly powerlifting. I also love spending time with family and friends.

## PERSONAL CHARACTERISTICS

I am punctual, diligent and love learning new things. I am a critical thinker who happily asks the questions "why" and "how". I have a strong curiosity about how people think and why they act as they do.
